At long last and after months of discussions with planners, the management of Festival Place and our landlords, finally the doctors along with our landlords have come to an agreement with the management of Festival Place and we now have access to their car parking via the footbridge passing over Churchill Way from Level B1.

We know how frustrating this has been for you and we have had to answer many questions regarding why we didn't have this facility in place from the beginning. Unfortunately this matter was very much out of our hands, but with a determined effort, we have finally got what we wanted from our first day on site.

**Where can we find out more about the practice?**
